ABOUT

While growing up in West Virginia in the age of Xanga and MySpace, I loved the creative possibilities of HTML and CSS. As I returned to coding as an adult, I began working with back-end technologies to understand web development more fully. I have a strong background in education and the arts, which guide my organization and collaboration skills.

EXPERIENCE WITH

Python	MySQL	HTML
Django	PostgreSQL	CSS (SASS, Bootstrap)
Flask	JSON	JavaScript
React.js	Heroku	Git/Github

PROJECTS

Moral Of The Story
Django / PostgreSQL / JavaScript / HTML / Bootstrap

Social networking web app for sharing life's little wisdoms. Utilizes Javascript's Fetch API to handle data seamlessly.

Bibli-O
Flask / PostgreSQL / Goodreads API / HTML / CSS / Bootstrap

Book review web app, using Heroku's PostgreSQL and the Goodreads API.

Make-A-Habit
React.js / HTML / CSS

React front-end design for a habit-tracking web app.

Portfolio: Kathleen Dunn
HTML / CSS / Bootstrap

Utilizes many Bootstrap features to create an engaging portfolio for singer and choral director, Kathleen Dunn.

EDUCATION / BACKGROUND

Rider University
Master of Arts in Teaching (4.0) - May, 2017

Westminster Choir College (Rider)
Bachelor of Music: Music Education (3.9) - May, 2017
